

## City of Palos Hills CHIPPER TRUCK SERVICE GUIDELINES & SCHEDULE

- ✂ The chipper truck service is provided to single family homes within the City of Palos Hills. The service is not available to commercial business establishments, townhouses, condominiums, apartments, new construction or vacant lots. **The chipper service will not pick up tree or branch materials placed at the edge of the roadway by professional or commercial tree trimming /removal companies.**
  
- ✂ Service cycles normally begin on Monday unless there is a Monday holiday. **To ensure a timely branch pick up please put your branches at the edge of the road by Monday morning.** Please avoid placing branches out before your pick up week or after the truck has serviced your street/address. The branches may cause storm water drainage problems or block the view of motorist and pedestrians creating a safety concern.
  
- ✂ Branches should be cut to a minimum length of 4 feet long and a maximum length of 6 feet long with a maximum diameter of 10 inches. Branches larger than 10 inches in diameter must be cut into logs 18” to 24” long. **A fee is charged for log and root ball pick up.**
  
- ✂ For safety reasons the chipper service only takes branches cut to the proper length. Any materials other than properly cut branches will be left for the resident to dispose.
  
- ✂ Branches should be neatly stacked and placed three feet from the edge of the roadway with the cut ends of the branches facing the roadway. Improperly stacked branch piles will be passed by and will not be picked up until they are properly restacked.
  
- ✂ **Root balls and logs will be picked up upon request.** Call City Hall at 598-3400 to requests this service. Logs must be cut between 18” and 24” in length. A fee of \$5.00 per log and \$10.00 per root ball will be added to your water bill for each root ball and log picked up.
