CHIPPER TRUCK SCHEDULE & SERVICE GUIDELINES

The chipper service is a very popular service the City of Palos Hills offers it's residents. Because the service is popular we ask that residents follow these operational guidelines

The chipper service is intended for the residents of the City of Palos Hills. The service is not available to commercial tree operations working within our city limits, commercial establishments, townhouses, condominiums, apartment complexes or vacant lots.

Branches should be placed at the edge of the roadway just before the beginning of each service cycle. Service cycles always start on Monday mornings. Branches placed at the edge of the roadway after the chipper truck has passed will be left until the next service cycle. **Please put your branches at the edge of the road by Monday morning.**

Branches should be cut to a minimum length of 4 feet and a maximum length of 6 feet.

Only branches 10 inches in diameter or less will be accepted for pick up.

Branches should be neatly stacked and placed three feet from the edge of the roadway with the cut ends of the branches facing the roadway.

A fee of \$5.00 per log and \$10.00 per root ball will be added to your water bill for each root ball and log picked up. Root balls and logs will only be picked up upon request. Call City Hall 598-3400 to make requests for this service. Logs must be cut between 18" and 24" in length.

For safety reasons the chipper service only takes branches cut to the proper length. Any materials other than properly cut branches will be left for the resident to dispose.

The chipper program divides the city into four equal areas. Each area is serviced 8 times during the course of the program. The program runs from March 17, 2008 through October 24, 2008.

Section #1-West side of 84th Ave. going west to Kean Ave. north side of 103rd St. north to 95th St.

Please put your branches at the edge of the road by Monday morning the week of:
